

# Upright Mount UTM-30

## Environmental Chamber

### ADVANCED PAVEMENTS TESTING SYSTEMS

IPC Global offers a range of environmental chambers to suit their universal testing machines (UTMs), allowing the user to analyse the performance of materials at non-ambient temperatures.

IPC Global's research specification environmental chambers have been designed specifically to fully conform with all the main ASTM, AASHTO, EN and AS standard test methods for determining the mechanical performance of asphalt mixtures.

### Features

- Programmable Digital Controller—PID tuning, temperature ramps and dwells, auto-tuning, selectable sample time
- Two access ports
- Stainless steel AISI 304, 18/10 heavy duty construction
- Triple glazed, Argon filled, Lo E glass door
- Defrost system and interior lighting
- Fan forced ventilation
- Ergonomic design provides easier access to chamber
- Fully adjustable temperature probe for greater accuracy.

## Specifications

### Specimen Dimensions

**Standard Range** -25°C to +70°C

**Extended Range** -50°C to +80°C

**Temperature Accuracy** +/- 0.2°C\*

\* At centre of chamber near test specimen

### Extended Range

**Maximum Cooling Rate** > -50°C/hour\*

\* Dependant on thermal mass within chamber

### Extended Range

**Programmable**

**Temperature Gradient** -20°C/hour with ramp control

### Dimensions and Weight

**External Dimensions** 1,790 x 920 x 900mm (HxWxD)

**Internal Dimensions** 1,040 x 790 x 545mm (HxWxD)

**Standard Range Weight** 220kg

**Extended Range Weight** 270kg

### Electrical

**Standard Range** 1.7kW Single Phase, 230V 50Hz, or 220V 60Hz, or 110V 60Hz

**Extended Range** 5kW Three Phase, 400V 50Hz, or 208V 60Hz, or 240V 60Hz, or 480V 60Hz

### Ordering Information

79-PV70E12 – Standard UTM-30 Environmental Chamber (-25°C ~ +70°C)

79-PV70E22 – Extended UTM-30 Environmental Chamber (-50°C ~ +80°C)

Additional accessories may be required to create a working testing system. Please contact us for advice.

## High Quality Mechanical Refrigeration System

Upright Mount Environmental Chamber

The superior construction of these high quality chambers utilizes state-of-the-art VFD inverter technology, high-efficiency single or double compressor mechanical refrigeration, stainless steel construction, multiple fan air circulation, advanced insulation and triple glassed doors to ensure exceptional performances in term of temperature stability and homogeneity, total control over ramps and dwells, reliability over long term intensive use, accurate performing of complex tests e.g. TSRST.

Two access ports are provided to facilitate the use of on-specimen transducers and other measuring devices.

## ► IPC Global Customer Care

**At IPC Global we are proud of our products.**

We are dedicated to supplying high quality, accurate, affordable, easy-to-use systems for Advanced Testing of asphalt, binders and other pavement materials. As a valued customer of IPC Global you will receive continuous, expert support and advice for your instrument. Furthermore, we offer full installation and training in the correct operation of your IPC Global equipment. For support from our expert Customer Care Team, contact your local IPC Global-Controls office/distributor or email [ipcglobalsupport@controls-group.com](mailto:ipcglobalsupport@controls-group.com).

Visit our website for more information [www.controls-group.com/ipcglobal](http://www.controls-group.com/ipcglobal).
