

DATA SHEET

Bulk Density Measures

Bulk density cylinders with different capacities

General description

Stainless steel construction with handles. The top rim is smooth and plane and parallel to the bottom conforming to the standards.

- Weights approx.:
48-D0446/1 kg 1.4
48-D0446/5 kg 4.9
48-D0446/10 kg 7.4
48-D0446/20 kg 11.9

Main features

- Stainless steel construction
- Strictly conforming to EN standards

Standards

- EN 1097-3

Products

48-D0446/1

Bulk density measure 1l capacity, stainless steel to EN1097-3

48-D0446/10

Bulk density measure 10l capacity, stainless steel to EN1097-3

48-D0446/20

DATA SHEET

Bulk density measure 20l capacity, stainless steel to EN1097-3

48-D0446/5

Bulk density measure 5l capacity, stainless steel to EN1097-3

Accessories and consumables
